# Ontario's System-Wide Electricity Supply Mix: 2024

Generators produce the electricity we use. They include nuclear, hydro, natural gas, wind and solar sources. The largest generator is Ontario Power Generation – a provincially-owned company. The chart shows how the generation looks in Ontario today.

## Where does Ontario's electricity come from?

The following is a breakdown of Ontario's system-wide supply mix for 2024

\*Includes Lennox and duel fuel (natural gas/bioenergy) and non-contracted emitting generation consistent with IESO
