The PUC Group of Companies (PUC) operate multiple utilities within Ontario that manage the supply and transmission of electricity, the supply, treatment and distribution of drinking water, and the operation of wastewater treatment facilities.

A nationally recognized leader in the utility sector, PUC is dedicated to supporting the communities we serve through curiosity, innovation, and growth. More than ever, our focus is on a sustainable PUC that is developing strategies to lower our carbon footprint, support community and economic development, and maintain exceptional customer service.

Reporting to the Environmental Operations Supervisor, Instrumentation & Maintenance, the Maintenance Mechanic I will help perform variety of activities to maintain mechanical and related systems used in the operation of water pollution control plants and related lift stations in an efficient and safe manner.

Wage Range: \$29.79 - \$34.82

As the Maintenance Mechanic I, your duties and responsibilities will include:

- Maintain mechanical and related systems used in the operation of water pollution control plants, related lift stations, and sanitary sewer overflow tanks in an efficient and safe manner.
- Conduct and complete activities that conform to the preventative maintenance program and/or manufacturer's specifications of equipment, instruments, or processes.
- Maintain a safe working environment through cleaning of workplace, grounds, roads and pathways, and maintenance of tools and equipment.
- Interact with the public, external agencies and authorities, suppliers, contractors and staff in a manner that will result in positive outcomes and actions.
- The ability to be on-call on a scheduled basis for after-hours emergencies.
- Perform other related duties

Qualifications:

- At minimum, post-secondary diploma in a related field, with three years' work experience in the mechanical maintenance field.
- Attain and maintain a Wastewater Treatment Operator Class 1 Certificate.
- Hold and maintain a valid Ontario Driver's License.
- Experience and knowledge in skills such as electrical, plumbing, millwright and welding are an asset.
- Ability to operate computerized systems.
- Ability to safely operate hand and power tools.
- Experience reading and understanding prints, plans and specifications.
- Basic knowledge of mathematics and chemistry.
- Ability to take initiative and exercise sound judgement.
- Ability to read and understand prints, plans and specifications.
- Strong oral and written communication skills.

Ability to work in confined spaces, as well as wear, and function with an SCBA

PUC Services is an equal opportunity employer.
